Core English plus your choice of elective

It's your English course, so you get to decide what you want to study! In your third module you can choose from a number of options. Focus on the areas of your English that you want to improve. This will definitely help you make the most of your time on your English course.

Maximum teacher contact time

More time with your teachers will make you more confident with your English. All lessons are creative and energising, allowing you to feel self-assured.

Intensive focus on all skills

More time in class will allow you to focus on the key skill areas of reading, writing, speaking and listening which will further develop fluency and accuracy through grammar, vocabulary, idioms and pronunciation.

Topic based lessons in everyday contexts

With newspapers, CD's, internet, video and other authentic resources, our teachers use 'real-life' materials that not only help you to understand how English is used by native speakers, but these materials help you to study English independently long after you have left EC. Every lesson is based on a fixed topic and all the essential

English, that you need to know, is taught within the context of the topic. You will then be able to apply your new-found skills correctly in other situations.

A focused yet relaxed classroom environment

Happy students learn better than unhappy ones! That's not a secret, but it's something that we at EC strongly believe. And so our classrooms are places where hard work is carried out in informal and relaxed settings. Your ability and motivation will improve in a classroom with a great atmosphere.
